The subject-matter and the scope of the changes must be indicated in detail.

The withdrawal must be pure and simple.

When the submission report drawn up following the modifications or withdrawal set out in clause 1 does not bear the signature referred to in paragraph 1, the modification or withdrawal is automatically deemed null and void. This nullity applies only to the modifications or withdrawal, not to the tender itself.

#### **3.4.7.3 Overview of the procedure**

*Text valid in case **several award criteria** are given in the Tender Specifications.*

In a first phase, the tenders submitted by the selected tenderers will be evaluated as to formal and material regularity. Irregular tenders will be rejected.

The contracting authority reserves the right to have the irregularities in the tenderers' tender regularised during the negotiations.

In a second phase, the formally and materially regular tenders will be evaluated as to content by an evaluation commission. The contracting authority will restrict the number of tenders to be negotiated by applying the award criteria stated in the procurement documents. This evaluation will be conducted on the basis of the award criteria given in these Tender Specifications and aims to setting a shortlist of tenderers with whom negotiations will be conducted. **Maximum 3 tenderers** may be included in the shortlist.

Then, the negotiation phase follows. In view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. **However, the contracting authority may also decide not to negotiate.** In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFOs. Once negotiations have closed, the BAFO will be compared with the exclusion, selection and award criteria. The tenderer whose BAFO shows the best value for money (obtaining the best score based on the award criteria given below) will be designated the contractor for this procurement contract.

#### 3.4.7.4 Award criteria

The contracting authority will choose the regular BAFO that it finds to be most advantageous, taking account of the following criteria:

##### a) Technical proposal 60%

The tenderer presents the detailed methodology to perform the requested services showing the suitability with Terms of Reference and comments made on it, activity schedule, staff schedule and work organization between team members based on the instructions given in the Terms of Reference. They are subject to evaluation according to the following sub-criteria:

1.	<p>Detailed Methodology:</p> <ul style="list-style-type: none"> <li>- Including the details on how all activities and sub-activities will be performed, and overall strategy to be used for the implementation of the assignments and methods to be used <b>Max 25 points</b>,</li> <li>- Understanding of ToRs and possible comments or observations on the ToRs, <b>Max 10 points</b>.</li> <li>- Risk assessment and related mitigation measures <b>Max 5 points</b></li> </ul>	<b>Max 40 points</b>
2.	<p>Relevant and well detailed work plan &amp; timetable of activities/ sub-activity and <b>Max 10 points</b>.</p> <p>Work distribution between the team members in accordance with the estimated maximum person days <b>10 points</b>.</p>	<b>Max 20 points</b>

For the technical award criteria, the average score has to be at least 70% (42/60) to qualify for the Negotiation stage.

##### b) Financial proposal (40%)

With regards to the 'price' criterion, the following formula will be used:

$$\text{Points tender A} = \frac{\text{amount of lowest tender} * 40}{\text{Amount of tender A}}$$

### **3.4.7.5. Final score**

The scores for the award criteria will be added up. The procurement contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the control shows that the Declaration on honour corresponds with reality.

### **3.4.7.6. Awarding the procurement contract**

*Articles 41 and 81 of the Law*

The procurement contract will be awarded to the tenderer who has submitted the most economically advantageous tender.

Notice though that in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the procurement contract.

The contracting authority may either decide not to award the procurement contract; either redo the procedure, if necessary, through another award procedure.

The contracting authority maintains the right to award only a certain lot or certain lots.

### **3.4.7.7. Concluding the procurement contract**

*Art. 88 of the Royal Decree Award*

In accordance with Art. 88 of the Royal Decree of 18 April 2017, the procurement contract occurs through the notification to the selected tenderer of the approval of his tender.

Notification is via digital platforms, e-mail or fax and, on the same day, by registered post.

**So, the full contract agreement consists of a procurement contract awarded by Enabel to the chosen tenderer in accordance with:**

- These Tender Specifications and its annexes;
- If any, minutes of the information session and/or clarifications and/or the addendum,
- The approved BAFO of the contractor and all of its annexes;
- The registered letter of notification of the award decision;
- Any later documents that are accepted and signed by both parties, as appropriate.

In an objective of transparency, Enabel undertakes to publish each year a list of recipients of its contracts. By introducing his tender, the successful tenderer declares that he agrees with the publication of the title of the contract, the nature and object of the contract, its name and location, and the amount of the contract.

## 4 Special contractual provisions

This chapter of these Tender Specifications holds the specific provisions that apply to this public procurement contract as a derogation of the 'General Implementing Rules for public procurement contracts and for public works concessions' of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

These Tender documents do not derogate from Art.25-33 of the General Implementing Rules.

### 4.1 Definitions (Art. 2)

- **Contract manager:** The official or any other person who manages and controls the performance of the contract;
- **Performance bond:** Financial guarantee given by the successful tenderer to cover its obligations until final and good performance of the contract;
- **Acceptance:** Observation by the contracting authority that the performance of all or part of the works, supplies or services is in compliance with good practice and with the terms and conditions of the contract;
- **Progress payment:** Payment of an instalment under the contract after service delivery is accepted;
- **Advance:** Payment of part of the contract before service delivery (if accepted);
- **Amendment:** Agreement established between the contracting parties during contract performance in view of changing documents applicable to the contract.

### 4.2 Managing official (Art. 11)

The managing official is **Mr Jude MUZALE, Intervention manager for social protection Project**, to be also mentioned in the notification letter.

Once the procurement contract is concluded, the managing official is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the procurement contract will be addressed to him/her, unless explicitly mentioned otherwise in these Tender Specifications.

The managing official is responsible for the follow-up of the performance of the contract.

The managing official is fully competent for the follow-up of the satisfactory performance of the procurement contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. (S)he may order any modifications to the procurement contract with regards to its subject-matter provided that they remain within its scope.

However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the procurement contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under the contracting authority.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g., performance deadline) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the Tender Specifications and that has not been notified by the contracting authority, will be considered null and void.

### 4.3 Subcontractors (Art. 12 to 15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not relieve him of liability to the contracting authority. The latter does not recognise any contractual relation with third parties.

The contractor remains, in any case, solely liable to the contracting authority.

The service provider commits to having the procurement contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the procurement contract. **Any replacements must be approved by the contracting authority.**

*Art. 12/3 § 2 of the Royal Decree of 14 January 2013:*

*3° when this involves a service contract in a sector susceptible to fraud, the subcontracting chain may only have two levels at most, namely the contractor's direct subcontractor and the second level subcontractor.*

When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

### 4.4 Confidentiality (art. 18)

The knowledge and information gathered by the tenderer under the framework of this public contract is strictly confidential.

Under no circumstances can the information collected, regardless of its origin and nature, be transferred to third parties in any form.

The tenderer is therefore bound by the duty of discretion.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);
- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);

- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority,
- Return, at the first request of the contracting authority, the above elements,
- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

## **4.5 Protection of personal data**

### **4.5.1 Processing of personal data by the contracting authority**

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

### **4.5.2 PROCESSING OF PERSONAL DATA BY A SUBCONTRACTOR**

During contract performance, the contractor may process personal data of the contracting authority exclusively in the name and on behalf of the contracting authority, for the sole purpose of performing the services in accordance with the provisions of the Tender Specifications or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

The personal data that will be processed are confidential. The contractor will therefore limit access to data to the strictly necessary personnel for the performance, management and monitoring of the public contract.

For the performance of the public contract, the contracting authority will determine the purposes and means of processing personal data. In this case, the contracting authority will be responsible for the processing and the contractor will be its processor, within the meaning of Article 28 of the GDPR.

Processing carried out on behalf of a controller must be governed by a contract or other legal act that is binding on the processor with regard to the personal data controller and that sets out that the subcontractor acts only on the instruction of the person in charge of the processing and that the confidentiality and security obligations regarding the processing of personal data are also the responsibility of the subcontractor (Article 28 §3 of the GDPR).

To this end, the tenderer must fill out, sign and submit to the contracting authority the subcontracting agreement given in Annex 6.18.

#### 4.6 Intellectual property (Art. 19 to 23)

The contracting authority acquires the intellectual property rights created, developed or used during performance of the contract.

Without prejudice to clause 1 and unless otherwise stipulated in the procurement documents, when the subject-matter of the procurement contract consists of the creation, manufacture or the development of designs or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

For domain names created under the procurement contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the procurement documents.

When the contracting authority does not acquire the intellectual property rights, it obtains a patent licence of the results protected by intellectual property law for the exploitation modes that are mentioned in the procurement documents.

#### 4.7 Performance bond (Art. 25 to 33)

The performance bond is set at 5 % of the total value, excluding VAT, of the procurement contract. The value thus obtained is rounded up to the nearest 10 euros.

In accordance with the legal and regulatory provisions, the performance bond may be constituted either of cash or of public funds or may take the form of a joint performance bond.

The performance bond may also take the form of a surety bond issued by a credit institution meeting the requirements of the law on the statute and control of credit institutions (**Bank guarantee**),

As a derogation from Article 26, the performance bond may be

- posted through an establishment that has its registered office in one of the countries of destination of the services. The contracting authority maintains the right to accept or refuse the posting of the bond through that institution. The tenderer shall mention the name and address of this institution in the tender; or
- constituted by a one-off deduction from payment of the first invoice as payments will be made in instalments.

This derogation is founded on the idea of providing possible local tenderers with an opportunity to submit a tender. This measure is made essential by the specific requirements of the contract.

The contractor must, within 30 calendar days from the day of procurement contract conclusion, furnish proof that he or a third party has posted the bond in one of the ways set out below:

1° in the case of cash, by transfer of the amount to the bpost account number of the Deposit and Consignment Office Fill out the form

[https://finances.belgium.be/sites/default/files/01\\_marche\\_public.pdf](https://finances.belgium.be/sites/default/files/01_marche_public.pdf) as completely as possible, and return it to the e-mail address to: [info.cdcdek@minfin.fed.be](mailto:info.cdcdek@minfin.fed.be)

After reception and validation of said form, an agent of Belgium's Deposit and Consignment Office (Caisse des Dépôts et Consignations) will communicate to you the payment instructions (account number + communication) for posting the bond in cash;

- 2° in the case of public funds, by depositing such funds, for the account of the Deposit and Consignment Office, with the State Cashier at the head office of the National Bank in Brussels or at one of its provincial agencies or with a public institution with an equivalent function;
- 3° in the case of a joint surety, by deposit via an institution that lawfully carries out this activity of a deed of joint surety with the Deposit and Consignment Office or with a public institution with an equivalent function;
- 4° in the case of a guaranty, by the deed of undertaking of the credit institution.

**This proof must be provided as applicable by submission to the contracting authority of:**

- 1° the deposit receipt of the Deposit and Consignment Office or of a public institution with an equivalent function; or
- 2° a debit notice issued by the credit institution; or
- 3° the deposit certificate issued by the State Cashier or public institution with an equivalent function;  
or
- 4° the original copy of the deed of joint surety stamped by the Depot and Consignment Office or by a public institution with an equivalent function; or
- 5° the original copy of the deed of undertaking issued by the credit institution.

These documents, signed by the depositor, must state why the performance bond was posted and its precise usage, consisting of a concise indication of the subject-matter of the procurement contract and a reference to the procurement documents, as well as the name, first name and full address of the contractor and, where relevant, that of the third party that made the deposit on the contractor's account, bearing the statement 'lender' or 'mandatory', as appropriate.

The period of 30 calendar days specified above is suspended during the period of closure of the contractor's business for paid annual holidays and the days off in lieu stipulated by regulation or by a collective binding labour agreement.

Proof that the required performance bond has been posted must be sent to the address that will be mentioned in the contract conclusion notification.

**Request by the contractor for the acceptance procedure to be carried out:**

- 1° For the provisional acceptance: This is equal to a request to release the first half of the performance bond;
- 2° For the final acceptance: This is equal to a request to release the second half of the performance bond, or, in case no provisional acceptance applied, to release the whole of the performance bond.

## **4.8 Conformity of performance (Art. 34)**

The works, supplies and services must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the works, supplies and services must comply in all aspects with good practice.

## **4.9 Changes to the procurement contract (Art. 37 to 38/19)**

### **4.9.1 Replacement of the contractor (Art. 38/3)**

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial procurement contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of supplies and services already performed, the new contractor's contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the procurement contract.

#### **4.9.2 Adjusting the prices (Art. 38/7)**

For this procurement contract, price reviews are not permitted.

#### **4.9.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)**

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;
- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

#### **4.9.4 Unforeseen circumstances**

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

#### **4.10 Preliminary technical acceptance (Art. 42)**

The contracting authority reserves the right to demand an activity report at any time of the assignment to the service provider (meetings held, persons met, institutions visited, summary of results, problems encountered and unresolved issues, deviations from the planning and deviations from the ToR...).

## **4.11 Performance modalities (Art. 146 et Seq.)**

### **4.11.1 Deadlines and terms (Art. 147)**

The services must be performed within 6 calendar months (overall contract duration) with a maximum of 120 man/person-days as from one day after the date on which the service provider received the award notification letter. The closure of the service provider's business for annual holidays is included in this calculation.

### **4.11.2 Place where the services must be performed and formalities (Art. 149)**

The services will be performed in Rwanda.

### **4.11.3 Evaluation of the services performed.**

If during contract performance irregularities are found, the contractor shall be notified about this immediately by fax or e-mail, which shall be confirmed consequently. The contractor is bound to perform the non-complying services again.

When the services have been performed, the quality and conformity of the services shall be evaluated. A report of this evaluation shall be drawn up. The original copy of this report will be sent to the contractor. Any services that have not been performed correctly or in conformity shall be started again.

## **4.12 Inspection of the services (Art. 150)**

If during contract performance irregularities are found, the contractor will be notified about this immediately by fax or e-mail, which will be confirmed consequently by registered letter. The contractor is bound to perform the non-complying services again.

The service provider advises the managing official by registered post or e-mail showing the exact date of dispatch, at which date the services can be controlled.

## **4.13 Liability of the service provider (Art. 152-153)**

The service provider takes the full responsibility for mistakes and deficiencies in the services provided.

Moreover, the service provider indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the services or due to failure of the service provider.

## **4.14 Zero tolerance Sexual exploitation and abuse**

In application of Enabel's Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

## **4.15 Means of action of the contracting authority (Art. 44-51 and 154-155)**

The service provider's default is not solely related to services as such but also to the whole of the service provider's obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the procurement contract, it is strictly forbidden to the service provider to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the procurement contract,

regardless of their hierarchical rank.

In case of violation, the contracting authority may impose a lump-sum fine to the service provider for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the contractor hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the procurement contract and/or the exclusion of procurement contracts of the contracting authority for a determined duration.

#### **4.15.1 Failure of performance (Art. 44)**

§1 The contractor is considered to be in failure of performance under the procurement contract:

1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;

2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;

3° when he does not observe written orders, which are given in due form by the contracting authority.

§2 Any failure to comply with the provisions of the procurement contract, including the non-observance of orders of the contracting authority, is recorded in a report ('process verbal'), a copy of which will be sent immediately to the contractor by registered mail.

The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

#### **4.15.2 Fines for delay (Art. 46 and 154)**

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance term without the issuing of a report and they are automatically applied for the total number of days of delay.

Without prejudice to the application of fines for delay, the contractor continues to guarantee the contracting authority against any damages for which it may be liable to third parties due to late performance of the procurement contract.

#### **4.15.3 Measures as of right (Art. 47 and 155)**

§1 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognised the defects found.

## 5 TERMS OF REFERENCE

### DEVELOPMENT OF NATIONAL CREATIVE ECONOMY POLICY AND A FIVE-YEAR STRATEGIC PLAN FOR THE CREATIVE ECONOMY IN RWANDA

#### 5.1. BACKGROUND

The concept of the creative economy or orange economy emphasizes the vital role of creativity in modern economic life and asserts that economic and cultural development are interconnected components of a broader developmental process.

The creative economy is renowned for its effects on jobs/employment, income, and GDP which can easily be measured. These effects on prosperity are often accompanied by the cultural revolutions, beautification, and human connectedness that can also come as a result of creativity and freedom of expression. The creative economy is often considered among the critical drivers of economic growth and development when individuals, private institutions, and the government take steps to empower creative and cultural work which benefits individuals, who in turn use their creativity and skills to benefit their communities in a cycle of positive mutual benefit.

The creative industries are among the most rapidly growing sectors within the global economy, yielding substantial influence on the Gross Domestic Product (GDP) of numerous countries. These countries harness the power of their cultural and creative industries to strengthen and propel economic growth, through diverse job creating services and activities.

2021, themed by the UN as the International Year of Creative Economy for Sustainable Development, spotlighted the significance of creative solutions in addressing global challenges. The creative economy, as emphasized by the United Nations General Assembly resolution 74/198, played a crucial role in advancing multiple Sustainable Development Goals (SDGs), including poverty eradication, gender equality, economic growth, innovation, sustainable cities, and fostering inclusive societies, among others. ([UNICTAD](#))

Globally, the cultural and creative industries exhibit remarkable dynamism and immense potential for economic value. In 2017, the core creative industries are estimated to have contributed \$1.328 trillion, equivalent to 6.58% of the USA's GDP of \$19.391 trillion. Additionally, the creative industries, in their entirety, added \$2.247 trillion, representing 11.59% of the USA's GDP that year. These figures underscore the substantial economic value and impact of these industries on national GDP.

In Africa, despite its rich cultural heritage and abundant creative talent, the full potential of the creative arts industries remains largely untapped due to inadequate policies and strategies. Official data on the value of these sectors is scarce across the continent. However, a study conducted in South Africa in 2017 revealed that the creative industry contributes significantly to the GDP, surpassing sectors like agriculture.

Africa has the opportunity to emerge as a leading global hub for arts and culture. Intra-African trade in creative industries is growing faster than that of other sectors and could boost the aggregate value of intra-African trade to further reduce the region's exposure to global volatility. But it remains relatively low compared to other parts of the world, even by developing country standards (**African Trade Report 2022**).

West Africa, notably Nigeria, is the leader on the continent in the number of films produced annually, Southern Africa has the largest number of cinema screens on the continent, with most found in South Africa, and Eastern Africa, predominantly Kenya, has the largest number of private television channels (**UNESCO, 2021**).

[Article 119 \(c\)](#) of the East African Community Creative and Cultural Industries Treaty emphasizes cooperation among Partner States to promote cultural activities, including fine arts, literature, music, performing arts, and other artistic endeavours. It also highlights the importance of joint efforts in developing mass media programs to enhance cultural

appreciation within the Community, ultimately aiming to strengthen regional ties and citizen associations.

Rwanda's recorded history dates back several centuries, with each era marked by specific artistic expressions, which continued to shape our cultural and creative landscape over the years.

Today, Rwanda is strengthening its commitment to build a united nation, with sustainable economic development rooted in its rich cultural and creative heritage.

Rwanda's creative industries drive significant economic growth and developmental impact with the right level of support not limited to employment, export development, economic diversification, diaspora engagement, and nation branding.

According to the National Institute of Statistics of Rwanda (NISR), the Cultural and Creative Industries (CCI) related activities have significantly increased from 1% (1999) to 5 % (2023) as the contributions to the total stake of services in the National Gross Domestic Product (GDP).

The Creative Industries in Rwanda stand at the intersection of arts, business, and technology. Within these sectors lie activities that heavily rely on creative skills and have the potential to generate income through trade and intellectual property rights.

Recognizing this value, the Government of Rwanda has committed to expanding and nurturing its creative economy as part of its broader economic diversification strategies. These initiatives are aimed at stimulating economic growth, fostering prosperity, and enhancing overall well-being within our nation.

Rwanda has highly talented youth a wide array of creative disciplines, including fashion, film, photography, music, performing arts, advertising, architecture, arts and crafts, design, publishing, research and development, software development, computer games, electronic publishing, TV, and radio, among others.

The advent of the digital revolution, supported by Rwanda's robust internet connectivity, has unleashed unprecedented opportunities for this sector to emerge as a significant economic powerhouse. Furthermore, the creative industry holds immense potential to expand Rwanda's exports, particularly in sectors such as visual arts and craft industries, performing arts industries, design industry, and literary arts industries.

The invaluable contribution of these industries can no longer be overlooked, hence, there is a pressing need for policy and strategic plan to catalyse the growth and foster dynamism in the development of Rwanda's creative economy.

It is against the above background, ENABEL, the Belgian Development Agency under Social and Decent work programme and the Ministry of Youth and Arts (MoYA), seek to develop the National Creative Economy Policy and a five-year strategic plan for the creative economy that will enable the creative economy sector to provide policy orientations and implementation framework and will translate the policy actions/guidelines into implementable actions, hence contributing to the economic growth and development of the country.

#### **6.4. Declaration on honour – exclusion criteria**

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations:

- 1) The tenderer or one of its ‘directors [1]’ was found guilty following a conviction by final judgement for one of the following offences:
  - 1° involvement in a criminal organisation
  - 2° corruption
  - 3° fraud
  - 4° terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
  - 5° money laundering or terrorist financing
  - 6° child labour and other trafficking in human beings
  - 7° employment of foreign citizens under illegal status
  - 8° creating a shell company.
- 2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.
- 3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;
- 4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

- e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel’s exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

- 5) When a conflict of interest cannot be remedied by other, less intrusive measures;
- 6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

- 7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding, or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.

Parties may agree to put in place a plan, including a timetable for implementing the plan, to address the gaps revealed by the audit.
- 10.6. The contracting authority will cover the costs of any audit carried out within the meaning of this article. Without prejudice to the above, the contractor will bear the costs of his employees.
