

**UGA22007-10050\_JINJA INFORMATION SESSION PROPOSAL STAGE**

**Q & A**

<b>No</b>	<b>Question (Q)</b>	<b>Answer (A)</b>
1	Is payment of alcoholic drinks acceptable if it is part of activities/implementation? (eg. Supporting youth in food and beverages sector)	Not acceptable for staff parties/Meetings but can be acceptable if it's part of the business support to youths in tourism and hospitality sector. Also note that; Liquor Act (Cap. 93) section 19 prohibits sale of Alcohol to persons below age of 18 including purchasing it on their behalf. Target age under this call is 15 to 35 years.
2	The advice is to keep the logframe simple, to keep it at 3 outputs; but what if we want to structure activities in 4 outputs?	It is not required to limit it to 3 outputs, if it makes more sense you can structure it with more than 3 outputs. The advice is merely to keep it simple/manageable.
3	The call promotes occupational licensing where relevant. In what cases is it relevant/should we take it into account? Is it applicable to business models in all targeted sectors?	In some sectors/segments it is relevant as it is a requirement and it can affect market access (eg tour guides). It is not necessarily relevant to all types of business models.
4	What is the maximum % of the budget is allocated for sub granting to the youth?	Maximum of 15% of the total budget of the action.
5	The allowed variation of 15% between results or 25% between activities, does it apply now or at implementation?	This applies to the implementation stage (Possibility of future allowed budget modifications)  Applicable variation between the CN and proposal is max 20%.
